

APPLICATION FOR PERMIT

Serial No. 8640

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of first receipt and filing in State Engineer's office JUL 26 1928
Returned to applicant for correction _____
Corrected application filed _____

The undersigned United Cattle & Packing Company
Name of applicant
of _____, County of _____,
State of _____, hereby make application for
permission to appropriate the public waters of the State of Nevada, as
hereinafter stated. (If applicant is a corporation, give date and place
of incorporation.) A corporation

1. The source of the proposed appropriation is Silver Bow Canon
Name of stream, lake, or other source
2. The amount of water applied for is .0446 second-feet.
One-second-foot equals 40 miners' inches
3. The water to be used for Mining Milling & Domestic
Irrigation, power, mining, manufacturing, domestic, or other use
4. The water is to be diverted from its source at the following point:
(This is an application to change the point of diversion, place
Describe as being within a 40-acre subdivision of public survey, or by course and distance to a section-corner. If on unsurveyed land, it should be so stated.
and manner of use. See Supplemental Sheet)

IF THE WATER IS TO BE USED FOR IRRIGATION, SUPPLY THE FOLLOWING INFORMATION:

- (a) Number of acres to be irrigated is _____
- (b) Description of land to be irrigated _____
Describe by legal subdivision, or if on unsurveyed land it should
be so stated and a description provided in accordance with special instruction from the State Engineer when application is returned for correction.

- (c) Use will begin about _____ and end about _____, of each year.
Month Month

IF WATER IS TO BE USED FOR POWER, MINING, STOCK WATERING, OR OTHER USE, SUPPLY THE FOLLOWING INFORMATION:

- (d) Power to be developed is _____ horsepower.
- (e) Works to be located _____
Give 40-acre subdivision on which works will be located, or locate by course and distance to a section-corner.
- (f) Point of return of water to stream _____
Describe in same manner as point of diversion.
- (g) State number and kinds of animals to be watered _____
- (h) Use will begin about _____ and end about _____, of each year.
Month Month
- (i) Remarks _____

DESCRIPTION OF PROPOSED WORKS

State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits. If water

is to be stored in reservoirs, it should be so stated and the location of the reservoir should be given with reference to the legal subdivisions.

5. Estimated cost of works _____

6. Estimated time required to construct works _____

7. Remarks _____
For use of applicant

AMENDED

8640

IN THE OFFICE OF THE STATE ENGINEER

STATE OF NEVADA

AMENDED APPLICATION FOR PERMISSION TO CHANGE THE POINT OF DIVERSION, PLACE OF USE AND MANNER OF USE OF WATER ALREADY APPROPRIATED.

Date of first receipt and filing in the State Engineer's
office: JUL 26 1928 1928.

Date Returned to Applicant for correction: _____ 1928.
Corrected Application filed: JAN -8 1929 1928.

The undersigned, UNITED CATTLE & PACKING COMPANY a corporation, hereby makes application to change the point of diversion, place of use and manner of use of a portion of the waters granted under Application No. 4910, Certificate No. 1066, Silver Bow Canon, as hereinafter shown.

1. The source of water supply of the propose change is Silver Bow Canon, sometimes called Breen Creek.

2. The amount of water applied for to be changed is a maximum flow of twenty (20) gallons per minute.

3. The water is to be used for mining, milling and domestic purposes.

4. The water is to be diverted from the source at a point in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 14, Township 1 North, Range 49 East, M. D. B. & M.

5. The water has heretofore been applied for to be diverted under application No. 4910, Certificate No. 1066, in the NW $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 23, Township 1 North Range 49 East.

6. The water herewith applied for to be changed was heretofore appropriated under application No. 4910, Certificate No. 1066, to be used upon the following described lands:

NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 23; NE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 22; SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 22; SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 22; NW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 27, Township 1 North, Range 49 East.

7. The water herewith applied for to be changed is to be used at the following point:

At a point in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ and NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 35, Township 1 North, Range 49 East, or at a point from which U. S. L. M. No. 306 bears S. 21°55'W. 7,645 feet.

8. The works consist of an earth embankment, and diverted into a pipe-line of approximately 14,500 feet of 1 $\frac{1}{2}$ " and 500' of 2" pipe to the place of use.

9. The time required for the completion of the works ninety days.

10. The estimated cost of the works is \$3,000.00.

11. The water will be used from January first to December thrity-first each year.

12. It is intended by this application to change only a portion of the water right heretofore appropriated for irrigation purposes and in view of the small quantity of water to be changed it is difficult to specify any land in the tract from which it will be taken except that the diminution of the supply will apply to the whole tract. Consequently in the approval, of the application, if the same be approved, it is intended that the approval shall provide for the right merely to use twenty gallons of water per minute in the future for mining, milling and domestic purposes heretofore used for irrigation purposes.

13. The use of water for mining and milling purposes will not interfere with any other rights, particularly in that the applicant owns and claims both under vested rights and permits, the total flow of Silver Bow Canyon and all its tributaries, all of which is greatly insufficient for its necessities and uses at all times. It is understood that certain of the tributary springs have been given other names but it is known to the applicant as Silver Bow Canyon, Silver Bow Creek and sometimes as Silver Bow Springs. (Other names given are Breen Creek or Breen Canon Creek).

When the use for mining and milling ceases the water will be used as heretofore.
